Education

Misr International University — Cairo, EG

Sept 2023 – July 2027

Bachelor of Science in Computer Science

- GPA: 3.66/4.0

Work Experience

Co-Assistant, Department of Computer Science

Cairo, EG

MIU

Sep 2024 - Jan 2025

- Assisted faculty in Introduction to Computer Science Programming to first-year students
- Reviewed and provided feedback on students' code and logic implementations

Intern – CRM Department

10th of Ramadan, Egypt

Dr. Greiche Glass Company

July 2025

- Completed a one-month internship in the CRM department
- Gained practical exposure to customer management systems and data handling workflows

Projects

Full Stack Car Rental Website

[car-rental-website.git](#) 

- Technologies: HTML, CSS, JavaScript, Node.js, MongoDB
- Developed a responsive web app for booking rentals with admin dashboard and database integration.

Bus Ticket System

2024

- Technologies: Java
- Created a route-based ticket booking system with payment simulation and optimization for performance.

URL Shortener

2024

- Tools: C++
- Implemented a hash map-based service for shortening URLs and efficient retrieval.

Laptop Price Prediction (Regression & Classification)

2026

- Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib
- Built end-to-end machine learning models to predict laptop prices using regression techniques.
- Applied data preprocessing, feature engineering, and exploratory data analysis (EDA).
- Trained and compared multiple models including Linear Regression and Decision Trees.
- Evaluated model performance using metrics such as RMSE and accuracy.

Face Recognition Attendance System

[FaceRecoAttendance](#) 

- Technologies: Python, OpenCV, Machine Learning
- Developed a face recognition system to automate attendance tracking.
- Implemented face detection and recognition using trained models.
- Built a pipeline for real-time image processing and data recording.

Technologies

Languages: C++, Python, JavaScript, Java, HTML5, CSS

Machine Learning: Scikit-learn, Pandas, NumPy, Matplotlib, Data Preprocessing, EDA

Backend & Frameworks: Node.js, Express

Databases: MongoDB, MySQL

Tools: Git, GitHub
